

# IRIA National App User Manual

The IRIA National app is mainly used for posting their upcoming events details, publishing blogs, news, newsletters, etc.

The functions of the IRIA App are as follows:-

1.

22:35 C I V I V
User ID
Password
LOGIN
Forgot Password ?

The users registered by the admin can login using their credentials

If the user forgot password, he/she can request for a new password by clicking 'Forgot Password' link provided in Login Page. A new password will be generated and sent to the user's email.

# 3. Home Page

Once logged in, the user will be redirect to the Home Page. Here the app displays a counter to the upcoming national event., list of upcoming national events and list of blogs. Clicking on an event from National Event's list will redirect to it's detail page. And clicking on a blog from the list will redirect to its blog detail page.

There is footer available in all the pages, which can be used for navigating to various screens like Events List, Gallery, Menu Page and Profile.

# 4. Events List Page

It will list all the events available for the user based on the City and State he belongs to. On clicking an event, it will redirect to its detail page.

# 5. Gallery Page

It will show the list of Event's gallery/albums. On clicking event/album, it will display all the images belongs to that.
